Greg Hunter's USA Watchdog

April 8, 2021

TRANSCRIBED BY: THOMPSON COURT REPORTERS INC.

1 GREG HUNTER: I'm Greg Hunter welcome to
2 USAWatchdog.com. Well there's a brand new guest and a
3 verifiable headline machine. He's a Christian man. He is the
4 nightmare of legacy, evil of propaganda media. That's why
5 people on USA Watchdog I'm sure will love him. He's being sued
6 for more than a billion dollars. He's coming up with a social
7 media platform that can handle more than a billion people. And
8 he also says President Trump would be back in office by
9 August, and he's come out with all kinds of other massive,
10 verifiable proof of this election fraud, which I won't let go
11 and neither will he, he spent a lot more than I am on it. I'm
12 talking about Mike Lindell, the creator and CEO of My Pillow.
13 Of course he has the Giza Sheets under that moniker, the
14 famous My Pillow, and also the Mattress Topper and all that
15 there, Michael Lindell, thank you for joining us today on
16 USAWatchdog.com.

17 MIKE LINDELL: Well, thanks for having me on.

18 GREG HUNTER: Look, I'm gonna start right out of the
19 bat. Wow, this is a big headline. I want to get an update to
20 it, that you think President Trump will be back in office
21 sometime in August. Why? What's the update?

22 MIKE LINDELL: Well, for one thing our country will
23 probably be ruined by August, if he doesn't get back in there.
24 But it's if everybody knew what I knew and where we're going

1 with this, to get this over the next five, six weeks, to get
2 all the evidence out to the masses where even you know, where
3 it's going to get to the point where if you're a Democrat or a
4 Republican, doesn't matter, you're going to know this was an
5 attack by China on our country. And even the Democrats now are
6 realizing that this isn't the party they voted for, this is
7 socialism and communism. And what I wanted, what we're gonna
8 do is get all this out there and just flood the internet and
9 flood everybody with information and the evidence. And then we
10 get this case before the Supreme Court. I believe, but with
11 what, what what's going to come before them, they're going to
12 have to accept it because it was an attack on our country.
13 There's no statute of limitations on the biggest crime,
14 cybercrime in history. And they're going to have to pull that
15 election down. Now what they do with it, I don't know at that
16 point, whether you have a new election, whether they just give
17 it to the rightful winner, which was Donald Trump, 80 million
18 to 66 million. You know that will be up to them to decide, and
19 what's going to happen then. But I just, I feel but with all
20 this stuff as it, as it goes out, just timewise I think August
21 is a good, is a good date. That's very subjective. I have
22 nothing to back that up other than the evidence I know about
23 and the plan that, that we have in place.

24 GREG HUNTER: You know, the and I can't talk about

1 this enough, and nobody will bring it up. And this is what is
2 so disgusting, particularly about the Republicans, Kevin
3 McCarthy and Mitch McConnell. They knew DNI Ratcliffe,
4 Director of National Intelligence, who handles 17 spy
5 agencies, put out a report and also told them that that report
6 was coming showing that foreign powers interfered with our
7 elections, including China.

8 MIKE LINDELL: Right.

9 GREG HUNTER: And this is from the former Director of
10 National Intelligence, John Ratcliffe, that report actually
11 came out just before the end of the Trump administration, but
12 he was making all kinds of statements about it before you know
13 he briefed the members of Congress. Is that part of what your,
14 your information is all about? I know one of your physicists
15 on there says 32% of the votes are bogus.

16 MIKE LINDELL: Well, that's a different one that Dr.
17 Frank is on there that's in my new, my new film out so called
18 Scientific Proof. By the way you can watch all these at
19 lindelltv.com. But when we came out with Absolute Proof, I'm
20 gonna backtrack. On January 9, I got this first piece of
21 evidence that I, and I was so excited because this showed that
22 was an attack by foreign countries, which I like to say John
23 Ratcliffe, validated by when he told, told people before the
24 President left office. Well, now we have 100%. What everybody

1 has seen in Absolute Proof of this attack by China and these
2 other entities, other countries. Just, I want to tell you
3 what's coming here. What I've done, the last month, we had
4 people on the ground. And what they did is they validated the
5 IP addresses, the IDs of the computers, the longitude,
6 latitude, the buildings, who did it. We did it for 20 of the
7 China attacks on November 3rd. We have this validated by a
8 third, by a third party. And this is what's going to come out
9 on, an Absolute Interference. And what it shows is just with
10 those 20 attacks, which there were hundreds and 1000s. There
11 were actually 1000s of attacks the night or from November 1st
12 all the way to November 5th, cyber attacks. Well, this attack,
13 just those 20 ones from China, turn all five states, Michigan,
14 Wisconsin, Pennsylvania, Georgia, and Arizona flip it to
15 Donald Trump. All this is gonna come out now on, in our new,
16 our new documentary, which is Absolute Interference. It's
17 going to show that this was an attack by China on our country.
18 This is communism that's come into our country, everybody sees
19 it, you look around you. I told people the other day I said,
20 you know, if you're a college student and went to our colleges
21 in the last two decades, you better wake up because socialism
22 isn't just having a cup of coffee with your friend, and going,
23 oh, this we're being social. I think everybody now recognizes
24 that this is socialism that led to communism. Look what

1 they've done to our country in one year, in just one year. And
2 it this is what this canceled culture, these are what these
3 attacks, the suppression of the First Amendment and free
4 speech. It's horrific what's going on right now. But um, it's
5 all gonna, it's all gonna come out, and it's gonna be amazing
6 we get through this.

7 GREG HUNTER: Well I, I'll tell you, this is just
8 disgusting. Just to this week, you know, the Secretary of
9 State in Georgia is trying to get people not to look at the
10 ballots. They're suing it's 400,000 ballots with no chain of
11 custody, you brought this up in Absolute Proof in which you
12 did a great job.

13 MIKE LINDELL: Right?

14 GREG HUNTER: And then also Arizona, they got a court
15 order, they still cannot look at the ballots. And that's the
16 physical, tangible proof.

17 MIKE LINDELL: Well, what they don't want you to look
18 at is the machines. To, you know, they don't want to do an
19 audit. It's like, you know, I've been sued by Dominion and,
20 and Smartmatic and Dominion has went on these series of
21 lawsuits and, and these series of threats to people. Well,
22 I've said it before, if I was, and we'll even talk about the
23 ballots, if I was accused of having rocks and knives in My
24 Pillow, I would say, I would bring all the media there and I'd

1 open up the pillows and say look at it's beautiful patented
2 fill. But they're not doing that. They're, they've been hiding
3 and suppressing the truth. None of its, you know, all of it.
4 You know, Brad Rathorford, Rothenberger, whatever, in Georgia,
5 him and Brian Kemp should be put in prison when this is over.
6 The things that people have done, and that have bubbled up and
7 trying to hide this from the public. It, nothing makes sense.
8 You don't hide things, unless you're covering up something
9 very terrible. And they are, they're covering up one of the
10 most evil, sinister criminal acts that this country has ever
11 experienced in history. We have, and all these people that
12 were part of it with your, from your Secretary of State Brad
13 Rothenberger in Georgia, Brian Kemp. I mean, Doug Ducey in
14 Arizona, you know, these guys, what were they covering up?
15 They still want Maricopa County, you're right, it's
16 ridiculous. They have, they even had the audit team teams
17 picked that they went through this process. They've been,
18 they've been pushing back, pushing back for two and a half
19 months, three months, almost now. Not letting people go in
20 there and do an audit. Let's just see if you, if there's
21 nothing to hide. Everybody should want to go and see this.
22 Whether you're a Democrat or Republican. People wake up this
23 is China, is attacked our country. And you know what, in our
24 film, I want to tell you this, in our film, Absolute

1 Interference, we put up, we put footage in there from a
2 documentary called Kill Chain. It was about a year ago. It's
3 an HBO documentary. And in that documentary, there are, there
4 are Democrats. One of them's a Democrat Senator from my home
5 state of Minnesota, Amy Klobuchar. And in there she warns of
6 the machines, if we use these, you can steal an election. They
7 were, the Democrats were very worried that the machines could
8 be used with, with be hacked by foreign interference. And, and
9 this, and the election stole. Well, just because China came
10 in and used the, happened to pick the Democrat Party, which
11 would it but don't kid yourself there were domestic actors
12 here too that helped them. But, but because they're on that
13 side, if you're a reg, if you're a Democrat that's been around
14 for decades, you know this isn't the Democrat Party that you
15 thought you had. And this is terrible and it's, but you
16 know, by, God's got his hand in all this and by it, taking
17 chill now. And we've been able to see the corrupt, the
18 corruption that's out there. You know, all these Republicans
19 that, what was their agenda? You know, you got to think what
20 was their agenda? Republicans that hid, that also hid it and
21 suppressed this. And suppressed audits and judges that never
22 looked at anything. Everyone says, oh that evidence has been
23 looked at. No evidence was looked at, in a courtroom. The
24 stuff that I have did come out till January 9th, some of it

1 came out a week ago. There's no judge or court that's seen this.
2 And when it does get out there, we're just going to have to
3 bring it to the people, bring it to the people and make, we're
4 gonna have to make the US and the world our stage and just
5 dump all the evidence to the people.

6 GREG HUNTER: Hey listen, John Ratcliffe wrote
7 Congress a letter and [inaudible] this report is coming out.

8 MIKE LINDELL: Right.

9 GREG HUNTER: So this is not a cuckoo time, something
10 that just --

11 MIKE LINDELL: Right.

12 GREG HUNTER: Mike Lindell knows about. This is a --

13 MIKE LINDELL: Right.

14 GREG HUNTER: -- official government report from the
15 Director of National Intelligence John Ratcliffe, who oversaw
16 17 spy agencies.

17 MIKE LINDELL: That's right.

18 GREG HUNTER: This is this is absolutely outrageous!
19 And the, the latest you can't look at the ballots, you can't
20 look at the machines. That's what Giuliani said, you can't
21 look at the ballots, you can't look at the machines. You can't
22 look at the ballots.

23 MIKE LINDELL: Right.

24 GREG HUNTER: It's unbelievable!

1 MIKE LINDELL: And you know when you talk about
2 those spy, that spyware, that's where this evidence has come
3 from. These guys are heroes. These guys that were there on
4 election night that were, that were there with it and actually
5 what watching what was going on. And ex government that people
6 that worked in the government before. These guys are all going
7 to come forward in my next thing there's whistleblowers and
8 everything but these guys put it, it's like having a movie
9 camera of what went on the night of the election so we have
10 all these cyber footprints. We have exactly what happened. You
11 know, all across our country. And I'm sure that's what, you
12 know, the report from John Ratcliffe that was what he was
13 trying to tell everybody, say hey, this is uh, we were
14 attacked by China and other countries and somebody should do
15 something about it. I mean, this is, --

16 GREG HUNTER: Amen.

17 MIKE LINDELL: -- I mean this is, you know the
18 Supreme Court when it gets there they're supposed to protect
19 our country. I believe when this all gets there now it'll be a
20 nine zero vote and they'll pull this election down. Everyone
21 says well Mike, they no, they've denied seeing anything before
22 and other judges have and other, you know, throughout our
23 country. Yeah, but they haven't seen this you guys. That's why
24 part of this plan is we're all going to, as we start dumping

1 this evidence like Absolute Proof we're going to just dump all
2 the evidence. Everything that the Supreme Court would have
3 seen with it you know, when they accept this there, they'll
4 have already seen it. And we're gonna get it out there now
5 because we're gonna have the frankspeech.com, we're gonna have
6 that plan for my half Frank [indiscernable] where it's going
7 to go out far and wide to everybody every single day. And
8 there's nothing that your Twitters and your YouTubes and
9 your, and your corruption in the media, your Facebooks,
10 there's nothing they can do to stop it. And all the mainstream
11 media that are the, the attacking leftist media, and all this
12 stuff, there's nothing they're gonna be able to do.

13 GREG HUNTER: Well, you know, this is funny. You
14 know, in Arizona, they've put in Kelly out there, you know
15 what happens if you find out that there's 345 600,000 ballots
16 said boop Kelly's not the senator because he doesn't get
17 retain his senate seat. What about the whole Warnock and
18 Osoff, a runoff that shouldn't have even happened? And then
19 you find out

20 MIKE LINDELL: Right.

21 GREG HUNTER: there's, you know, four or five, 6
22 million votes that oops, all went to Donald Trump, they didn't
23 lose,

24 MIKE LINDELL: Right.

1 GREG HUNTER: He probably didn't lose by 12,000, or a
2 little less than that. He probably won by 500,000. And so to

3 MIKE LINDELL: Well, I actually know the numbers and
4 it was Donald Trump won this election 80 million to 66
5 million.

6 GREG HUNTER: Wow.

7 MIKE LINDELL: And we'll have that we will show
8 everybody that. Eighty million to 66 million everyone. And I
9 want to tell you about those senator runoffs in Georgia, of
10 course, the other two won. But I want to tell you some, my
11 prayers were during that run off, because I knew that was you
12 know, it was all rigged with the machines. I was actually
13 praying that they would steal both seats. And here's why. If
14 they would have took one, if they would have only took one,
15 then everyone would have said oh, look at the machines. It's
16 fair, you know, and better and boy we don't we they don't have
17 control the senate, we can hang in there till 2022 and 2024.
18 You know what, there won't be a 2022 and 2024 if these
19 machines are still around, because every single election and
20 down tickets are rigged. They are rigged. And you will see
21 that in the as we dump all this evidence out there. But if
22 they would have just one took one of them, greed always
23 overrides evil, if they would have just took one of them, you
24 would have lost you know, a good portion of people would have

1 said, oh, yep, you know, there's there wasn't any fraud. We
2 just got to do it harder campaign harder next time and do
3 better. Well, you know, that's not true. They by losing both
4 of them, it's way better because by losing both of them, now
5 everybody gets to see and scares people going, wow, there's
6 nothing we can do as as they're destroying our country with
7 the borders. The first thing you get they do and they get in
8 there and say take away a pipeline and thousands of union
9 jobs. Well, that's not very Democratic. Right.

10 GREG HUNTER: Right.

11 MIKE LINDELL: You know, all the horrific things
12 they're doing to suppress the First Amendment. They're
13 attacking our Second Amend--, they're attacking all everything
14 we have. The Constitution. And now everybody gets to see that
15 and they're, and they're going, everyone's going to me. Well,
16 Mike, are you going to run for office, governor of Minnesota
17 and I'm telling them, I wouldn't run to be a dog catcher right
18 now. Because you know what, I wouldn't win. Because it just
19 what they put in who they want to win. And they said it, and
20 it's too bad. There's nothing you can do. The only reason this
21 was revealed is because they did they underestimated Donald
22 Trump, and all of you out there who voted. In 11:15, the night
23 of the election, the algorithms broke. Donald Trump was gonna
24 win anyway, in spite of the steal. If they'd have estimated it

1 right, we'd all went to bed at three in the morning, every
2 state would have been turned in and we just said, oh, Biden
3 won. But boy, was it close. We'll do better next time. It was
4 because of those mail-in vo.

5 GREG HUNTER: So wait, wait, wait. So Mike, so this
6 to your liking the fact they stole those two Senate seats in
7 Georgia, which I think they flip back if the ballots come out?
8 I think the seat in Arizona flips back, but you're liking
9 stole them out. Right?

10 MIKE LINDELL: Right, right, because everybody was
11 concerned and the whole country was concerned. Otherwise,
12 everybody, you know, it's just like a night of the election if
13 we didn't see all these deviations. Now, that happened the
14 night of the election. By the way, everybody mail-in votes
15 were counted the morning of November 3. They were not counted
16 in Michigan, the night of the the in the middle of the night
17 on the fourth like everybody thinks. So by taking these two
18 Senate seats, though, everybody had concern across the country
19 going, wow, they can do whatever they want now, and we you
20 know, we got to hurry up and get somebody elected in 22 and
21 24. Well, you know what, a if they'd have done it the other
22 way and only stole one of them seats. And everyone would have
23 been complacent, going, oh, you don't want to get them then.
24 But anyway, but now it's brought to light. Everybody's

1 concerned whether you're a Democrat or Republican, this is
2 horrific what they're doing in that whatever's in DC right
3 now, and I don't know what you would call it. But I'll tell
4 you what it is. It's so it's communism. And you everybody can
5 see what they're doing, just because you're a conservative out
6 there. And you have a podcast that maybe it's been taken. I
7 have a friend of mine and he sent out 30,000 emails. And he
8 talked about the election fraud and Google took away his
9 Google Maps and his Google. You know, this is horrific. What's
10 going on out here. The cancelization of our culture. But I
11 want to tell you about down tickets, all the down tickets many
12 many down tickets were stole too; John James won in Michigan.
13 Jason Lewis won in Minnesota.

14 GREG HUNTER: Yeah.

15 MIKE LINDELL: And every one said everyone says well,
16 Mike, how come all these congressmen won if this was rigged?
17 Well, there's a reason for that is because never in the
18 history has has this many Congressmen Republican like way to
19 win like that. And then the President loses the top ticket.
20 Once again, they underestimated the votes for all of them. But
21 they had to pump in votes for, for on for Biden, with only
22 Biden on the ticket and no down ticket. And then we have proof
23 that shows this too. So just take Michigan 100 and some
24 thousand votes were injected in the middle of the night with

1 just Biden on it and no down ticket. You know so so you see
2 there's so many different things that was going on out there.
3 But they but you're going to we're going to show you know all
4 these we're not going to stop I mean all these everything's
5 gonna have to be exposed all your down tickets. I don't know
6 what people do. But people there are so many people, your
7 Kathy Barnette in Pennsylvania, she won in a landslide and

8 GREG HUNTER: Kim Klacik.

9 [inaudible] Barnette.

10 GREG HUNTER: Also Kim Klacik in Baltimore.

11 MIKE LINDELL: Okay. Kim be yeah, there's many, many,
12 many across our country where they won their election and they
13 knew it. Kathy Barnette in Pennsylvania, she went door to door
14 and seen who they voted for. And she checked it out. I just
15 see if the person even lived there. It was like 30% of the
16 people didn't even exist. It was disgusting. And what they
17 what they did all the hard work, people go into put into
18 elections. And if you take away that we're all it's over
19 everybody. I don't care if you're a Democrat, Republican, an
20 independent. I don't care who you are. We know when a foreign
21 country when China can come in. And by the way, if you don't
22 think they're using this pandemic against you, you're wrong. I
23 mean, there's so many things that are going on right now. This
24 is it. We have two tracks going one of them, one of them. We

1 have to get this out there far and wide and get this election
2 pulled down. And two, they're trying to destroy our country
3 over here. And the first thing they're doing is take away
4 people's right right to free speech, that First Amendment
5 right, suppression suppression. I know people that had
6 websites, I want to do a shout out to Evil Shop up on Shopify
7 in Canada. They put up platforms. Many many people that just
8 overnight lost their website, Shopify just pulled the rug out
9 from under them. And you think about that these were these
10 were million dollar businesses and they pulled the rug out
11 from under them. Only for one reason they supported our great
12 President Donald Trump

13 GREG HUNTER: And I want to talk I want to get this
14 out because this is a two. This is, according to what I've
15 seen is a two pronged attack. So you have all this evidence
16 now you need an a platform to put it out, or I believe that's
17 what Frank is going to be. The servers, spend some money on
18 this, the servers say they will handle it upwards of a billion
19 people. Let's talk about your new platform that's coming out
20 next week called Frank, Fr, a n K, correct.

21 MIKE LINDELL: Right. And it's and you can get there
22 and Frankspeech.com. If you all get there. What we're doing is
23 we're gonna, if you sign up now, between now and Thursday at
24 midnight, you can get a VIP pass for third from Thursday,

1 midnight until we launch the big launch is on the 19th at 9am.
2 What this is it's a think of it as a YouTube, there's
3 nothing like it out there. It's a YouTube Twitter combination.
4 Everyone you see, that's a radio, that's an influencer out
5 there, they're gonna they're coming over. And we're gonna have
6 millions of people. And what it is, it's the safest platform.
7 I have put million dollars into the safety of it. Well, first
8 of all, it's been four years and these guys have worked on
9 this the technology-wise, when I put when I when I put out
10 Absolute Proof, it was able to withstand 50,000 people a
11 minute coming on to watch it. And 150 million people have seen
12 Absolute Proof. Now what we've doing, when launching this I've
13 spent the last four weeks, by getting servers all around the
14 country, my own, I own them. Getting cloud so we have so
15 we're protected where we don't have to rely on Amazon, or your
16 Googles, or your Apples. You don't have to rely on Apple,
17 you're gonna get an app, I think for your phone, your icon,
18 it'll be right there when you sign up. I took all of these
19 platforms out of the picture, so they don't shut us down
20 because we're going to be attacked by like, you've never seen
21 an attack coming. But I'll tell you what, I spent an extra
22 couple million dollars just just last week because I could
23 have launched a little bit earlier. I said, you know, what, is
24 there anything else? I asked all these geeks? These IT guys.

1 They said, can you is there anything else that we could get to
2 even protect us more? Overprotect us? Well, you can do this,
3 or you can do that. I said, you know what, give me two of
4 them, one of them, three of them. So we have a psychic
5 protection, if we get if we get busted through now, they don't
6 make the stuff to you know, they would have to be something
7 that that I that I couldn't buy that doesn't even exist. So
8 it's gonna be amazing. And when we launch on April 19, at 3am,
9 I mean, I mean at 9pm or 9am, when we launched at 9am, I'm
10 going to, we're going to have what's called a Frankathon, I'm
11 going to be I'm going to go live. I'm going to live stream
12 from that. And for 12 hours, and we're going to talk the first
13 day, we're all going to talk about what's happening to our our
14 First Amendment rights, because My Pillow this week is also
15 going to sue, Dominion and Smartmatic for and it'll be the
16 biggest First Amendment rights lawsuit ever. Alan Dershowitz
17 is involved with my team of lawyers. And he said, it's gonna
18 be the most one of the most important cases in history,
19 because of what they're doing to our country, no matter who
20 you are. Now, when we launch on the third, that'll be all
21 talking about that on the third. But we're also going to show
22 that piece of evidence I talked about earlier, which was
23 China, the 20 attacks, which flipped five states.

24 GREG HUNTER: Stop for a minute the third, the third

1 of what? I thought it was next week.

2 MIKE LINDELL: I mean, sorry. It's the 19th

3 GREG HUNTER: The 19th. The 19th. I'm sorry, I don't
4 get it. No.

5 MIKE LINDELL: No, no, no, no, I

6 GREG HUNTER: I want to make sure your message gets
7 out correctly. So the 19th is when this is gonna happen.

8 MIKE LINDELL: April 19.

9 GREG HUNTER: Okay.

10 MIKE LINDELL: At 9am

11 GREG HUNTER: Yep.

12 MIKE LINDELL: Is when we're launching
13 Frankspeech.com

14 GREG HUNTER: Got it.

15 MIKE LINDELL: Go there early, get your app, get your
16 everything set up. And and when, from that day from 9am to
17 9pm. I'm going to be live. And we're going to talk about the
18 our First Amendment rights. Well in the lawsuit that My Pillow
19 is going to launch this week against Dominion and Smartmatic
20 and, and that and then the next day, then the next day we are
21 we are launching, on Frank and to the world, Absolute
22 Interference. You guys watch this. And I'll tell you, every
23 single person on the planet that watches it will say, wow
24 China attacked our country, and this election needs to be

1 pulled down. And we need to we need to do something now. And
2 we're going to show things that have never been seen before.
3 We have we have people that are going to be their faces
4 covered like in the movies you see? Because they're going to
5 be whistleblowers. We have stuff and we're going to dump
6 evidence every single day for weeks until everyone's everyone
7 when you go to your neighbor. You don't even ask him what what
8 political agenda or political party he's with. You say hey, do
9 you think this election was taken by China? He's going to go
10 absolutely 100% it was. And then by that time we get to there
11 by the time it gets to the Supreme Court then all nine of
12 those justices they're people too. And they're gonna go, yeah,
13 it'll be a nine zero vote. What are we going to do now though?
14 That's what they'll say. Well, we know what happened. But now
15 what do we do? So at that point, they're gonna they're gonna
16 have to come up with a plan and or people will this country
17 will, but we need to, we need to protect ourselves now. And
18 and for what happened to our country because this was an
19 attack. This is a, you know, quite frankly, from China. It's a
20 it's one of the biggest cyber attacks and attacks in the
21 history of our planet, because there is no if we don't get rid
22 of the machines, everybody knows, I don't care what who runs
23 for what, you just be wasting your money on an election.
24 Because you know what, if those machines are in place, no

1 one's gonna win that you want to win. Whoever they want to win
2 will be the person in charge. You might have some Republicans
3 win, but that maybe they're corrupt. You know, you don't know
4 that. There's so many corrupt politicians out there. One thing
5 I've learned everyone in politics, I didn't know anything
6 about them. When I made met our great president, Donald Trump,
7 in the summer of 2016, private meeting, walked out there go
8 this is the most common sense, businessmen. Problem solution,
9 and he knew what it would manifest to help the people. And I'm
10 going and I went back to Minnesota, I said, I did a press
11 release said this guy is going to be the greatest president
12 ever. But all this I was attacked and attacked. And what's
13 what I've noticed, though, over the last four years, that when
14 I just dove into, you know, helping, helping, you know,
15 meaning different politicians, or politicians, well, here's
16 what I've noticed. All of them, I would say 90, some percent.
17 There's a handful, but they're 90, some percent either have a
18 political agenda, where they're making decisions based on
19 their party, not to help the people, or they have a personal
20 agenda, just to help themselves, to not make good decisions to
21 help themselves. Or they're compromised, or they're, quite
22 frankly, a crook. So then you have this handful over here,
23 including President Donald Trump, that actually did stuff
24 where their only agenda was to help the people. To benefit all

1 people. To help our country as one. And that's, we got to get
2 back to that. And that will come after we've let's get our
3 election pulled down. And then when we go to elect politicians
4 with paper ballots in the future, with no machines, then we
5 elect people that actually have our country, our people's
6 back, rather than rather than what we've seen happen now
7 because they've all exposed themselves. I mean, from your
8 Brian Kemps to your, Brad Raffenspergers to your Doug Duceys.
9 You're looking at all the governors like the governor of
10 Minnesota, the governor of Michigan, the governor of
11 California, New York. I mean, the list goes on. I just can't
12 believe that these people. It's like a whole 'nother world of
13 terrible individuals that are out there. They shouldn't even
14 have a job. You know, they shouldn't be I don't know what job
15 they would ever get. Because if they wouldn't be in that, in
16 that arena of corruptness.

17 GREG HUNTER: You said that I I covered the election
18 night I saw him winning at 10:30. You know, even Karl Rove
19 called the president around 10:30 and said, well, you won. Of
20 course, he won. But people like well, you didn't win. Yes, he
21 won. He wasn't sworn into office. I refuse to call Biden the
22 president he's still VP Biden.

23 MIKE LINDELL: Yes, Absolutely.

24 GREG HUNTER: But here's where I wanted you to get a

1 comment on. Because I've said this. And I've said I said you
2 know, because there are big numbers of Black voters he stole
3 their votes, who couldn't let them leave the thought
4 plantation. Latinos, and also big numbers of Democrats in
5 general. Do you think big numbers of Democrats voted for
6 Donald Trump? Is that what your that what your information is
7 showing?

8 MIKE LINDELL: The information is showing it across
9 the board more more of every every person voted for him than
10 it shows out there. They didn't just take it from one from one
11 race or one or one area whether it was Republicans, more
12 Republicans voted for him and did and more and more Democrats
13 did, more Blacks did, more more Latinos did. Across the board.
14 When you take it without with that race what they actually lied
15 and said it was 80 million to 75 million. With Biden winning.
16 The real totals, everybody, and we got this is all gonna come
17 out. You're gonna be able go state by state 80 million for
18 Donald Trump to 66 million for Biden. Think of all the
19 millions. I mean, you have layers he got more more of the
20 Black vote than any president in history. More of the
21 Hispanic, more of the, you know, they talk about the suburban
22 housewives, you know, whatever. They all voted more everybody
23 voted for him. I mean, this and this is every state if you're
24 a state. We have 100% proof and when you watch, if you watch

1 scientific proof in there, the state of Ohio, everyone's going
2 yeah, Donald Trump won, you know, we were good. We voted for
3 him. We got about seven or 8% whatever it was. Donald Trump
4 actually won Ohio by 15%. So every state that thinks that they
5 were part of this. You go to you go to Texas, Texas is going
6 well we didn't use Dominion machines we we knew they were
7 corrupt. Well, you use ES&S machines you used other machine.
8 And yes, Texas your vote was taken just like everyone else.
9 You just,

10 GREG HUNTER: Wow.

11 MIKE LINDELL: You know, it's just down a layer. So
12 there were politicians down tickets that lost because of this.
13 You know, you've got states like Florida, just double Iowa,
14 what do you win by 5%, Iowa about eight and a half or 9%. So
15 this stuff was done across the board. They just didn't want to
16 take it all in one state. They wanted to spread it out this
17 big steal. When you set this spyware, the stuff that went on
18 these algorithms. It was set you set it so you let's say you
19 want someone to win by 4%. Well, you set you set it and forget
20 it. It's kind of like you know, and all the massive computer
21 does it itself. So anybody out there and you want to win a lot
22 of this stuff, they set the win high enough, where because if
23 you win by a ton, then they're not going to do audits. You
24 follow me? They're not going to do any audits, then they're

1 gonna go well, he won by this much. That's what they tried to
2 do in Michigan. They dumped hundreds of thousands votes in the
3 middle of the night in Michigan. They just put put three fobs
4 dumped them in. Are you kidding me? You can't put them in a
5 computer that fast. This was a joke. Arizona took seven days
6 to count the last 1% because Maricopa County Donald Trump
7 would have won by over 80,000 and it was there he really won
8 Arizona by hundreds of thousands. But at that point, he was
9 gonna win Arizona just with the last 1% he was gonna win by 70
10 or 80,000. Why do you think they don't want to show Maricopa
11 County if they what do they have to hide? Why are these county
12 commissioners why are these county supervisors blocking it?
13 Four of them are Republicans and one Democrat there's no
14 logic. But you know what? I guarantee you there's probably
15 they're either they were part of it or they've been
16 threatened. When people get threatened going, hey, you're
17 living with a pretty nice family. I'm not saying that happens.
18 But I'm telling you I have heard that that's happened other
19 where in this country wait till we start dumping the threats
20 that came down. The threat there was a gal in Michigan and she
21 had to certify the vote, she got pictures sent to her of cut
22 up mutilated children and, and said this could be your
23 grandkids or this could be your daughter I guess it was. These
24 are horrible things. The biggest cover up, we're going to come

1 out with another film, on a couple three two three weeks,
2 called Absolute Cover Up. Then you're gonna see stuff you've
3 never seen before. I want everybody to know, I have spent a
4 lot of money hiring private investigators. I'm out there
5 investigating everything. Who hires the bots and trolls that
6 attack us all? Who went on why does YouTube take this down?
7 Why does why does Wikipedia evil Wikipedia and evil LinkedIn
8 you know who's behind these companies? And why are they all a
9 part of this? We're going to find that out everybody. And you
10 know, when those bots and trolls attack the retailers of My
11 Pillow, and and they all started canceling out because they
12 don't realize they're not real people. They're they're robots.
13 They're out there. People sit in a room and attack you. But
14 there's groups behind that, like Sleepinggiant.org that are
15 hired, they're like hired hitmen. They go out there and
16 destroy businesses and destroy people. And why does Jack
17 Dorsey on Twitter allow these people on his platform to do
18 that and to coyotes they said that on his platform that are
19 human trafficking across our southern border. But yet, good
20 people out there patriots you say one thing about the vaccine
21 you know or you talk about the machine election fraud or you
22 talk about the borders you say something that this
23 administration is doing wrong and you get taken down. Facebook
24 same way. Mark Zuckerberg I mean these guys these two guys I

1 mean I really believe that they were both part of this and I
2 believe that they're when this is all done they both end up in
3 prison unless they keep hiding out overseas like I heard Jack
4 is. But you know, this is horrific. What these guys have done,
5 these leaders of these, these Silicon Valley groups that are
6 you know, all these platforms that are you know, why are they
7 doing this to our country? Why are they doing this to the
8 people in our country, they had all our information. We all
9 knew it was dangerous for years to give all these informations
10 to these monopolized platforms. Well now look what they're
11 doing to us. When they could turn off Shopify can turn off
12 people's website, Google can destroy a person at will boom,
13 you know how deep is this going to go? We need to get our
14 country back now. I don't care who you are out there, Democrat
15 Republican, do your research. Go to Lindelltv.com. Watch
16 Absolute Proof. I didn't just put my thing out there and my
17 whole risk everything I have, my company and everything
18 because I'm not right. I did my due diligence it's not like
19 I'm its hearsay that I'm hearing other people say it. I went
20 out there myself and for I have not been home for months. I
21 can't go back there be too risky for my, you know, my families
22 and stuff because I know what's happened to other people's
23 families that are that are out there speaking out. So you
24 know, do I miss my family? My grandkids, my niece and nephews?

1 Absolutely. But we've we're in this, we're all in this.
2 Something's got to be done now. It's I don't even have a
3 company. If we if we just let this go and say, oh, the
4 election, we'll get them next time. There is no next time.
5 These machines have to be gone. That's, that's for sure.
6 You've been getting this election down. But the machines have
7 to be gone. They'll just they will. These things are the most
8 evil tools ever.

9 GREG HUNTER: I got lots of questions. Listen, I was
10 going to run a weekly news wrap up but I'm not I'm going to
11 put this on as soon as I can. And I'm going to let it roll.
12 And it's going to be my program just to let people know
13 programming. No, no weekly news wrap. I got a lot of questions
14 for you. You lost millions of dollars. Newsweek's reporting
15 you lost \$65 million. I don't believe any of these legacy
16 media people, and they take such great joy you being
17 destroyed, because they're certainly not going after your
18 information. They're going after you and trying to destroy
19 your company, did you lose \$65 million that you can't replace?

20 MIKE LINDELL: Well, this is what this would be. All
21 the ones that dropped this over the next year, that would be
22 about 65 million.

23 GREG HUNTER: Wow.

24 MIKE LINDELL: But now, I but we will do things to

1 to, you know, the public has responded. You know, I mean,
2 everyone out there has just, you know, buying direct from My
3 Pillow. And so and we're trying other, you know, other
4 outlets, we're doing radio and podcasts have went up. So, you
5 know, we're hoping to make that money up. But as of now, if I
6 didn't do nothing to if I did nothing right now, to make that
7 up. Yeah, we would lose that much. And, you know, it's, this
8 is the cancel culture world we're living in, and it's very
9 sad. But my employees, thank each and everyone out there,
10 they've all been busy. And, you know, we haven't had to lay
11 anybody off. And now there's 2500 people with families. And
12 they're both Democrats and Republicans. I have every single
13 my, you know, minorities, major-norities, whatever you want to
14 call every walk of life in my company. We're like a big
15 family. And we we've been attacked before so we'll you know,
16 like I say we we know we'll get through this. But what a
17 shame. I want to say it one more time. What a shame that
18 Dominion, sues My Pillow. And they sued Mike Lindell
19 separately, but they sued My Pillow also. What how shameful
20 they should be. Not only that, they're, you know what they did
21 to our country them and Smartmatic, let's not forget
22 Smartmatic, they're like the mothership of this. And for not
23 only being involved in the biggest crime against our country,
24 probably in history, well it will be in history of because it

1 affects every person, but then they go and attack a company
2 that had nothing to do with this. These. By the way, My Pillow
3 employees have stock. They're the ones that held the stock in
4 My Pillow. I have 51% but the rest are employees that have
5 stock and stuff that have earned their thing and they're
6 destroying these guys, these families. How shameful.
7 Absolutely shameful.

8 GREG HUNTER: I got you go good, good, good. Listen,
9 I got more to ask you about about these lawsuits. I you know,
10 you got Alan Dershowitz one of the best lawyers, and a huge
11 Democrat and he says he is.

12 MIKE LINDELL: Yeah. Yeah.

13 GREG HUNTER: What what kind of things have you
14 you sit down with Dershowitz you say, okay, so Dominion's
15 suing me, and then we're gonna sue them. What kind of stuff
16 does he say he's got to be licking his chops over this?
17 You've got to just, I mean, this is no small time lawyer, Alan
18 Dershowitz.

19 MIKE LINDELL: Right.

20 GREG HUNTER: What's he saying to you?

21 MIKE LINDELL: Alan's involved in he's not there's
22 two different things. Like Mike Mike Lindell's gonna go after
23 Dominion with all the evidence from the the election fraud. My
24 Pillow. He is when we sue them next week. This is where Alan

1 gets wants to get involved. And in I did hire him on to be
2 with my other lawyers. He is all about he says it's the most
3 important free speech First Amendment violation what they did
4 using lawsuits to threaten and bully people. He said that has
5 not happened since 1800. It was 1798 when they did this
6 against newspaper outlets. This is what he was telling me. He
7 said it's going to be the most important lawsuit in history of
8 the First Amendment for the rights of free speech. So he is
9 very he's very concerned and you're right he's a Democrat. He
10 said, Mike, we may never agree on politics, but he says every
11 person in this country should be concerned about this lawsuit.
12 This with our First Amendment right of free speech.

13 GREG HUNTER: Wow. Um, you I don't want you to
14 disclose anything here. But uh, you are in fear for your life.
15 Is that a, is that a fair statement? A fair question?

16 MIKE LINDELL: Well I'm just I'm being careful. I'm
17 not going back to Minnesota I want everybody to know that.

18 GREG HUNTER: Have you been sort of physically
19 threatened though?

20 MIKE LINDELL: Yeah well it depends what you call you
21 call people up do they say I'm going to kill you tomorrow? No.
22 I had been when I used to owe money to the mafia back when I
23 used to bet football and all and they come out to break my
24 legs every other day back in the 80s, it's very similar to

1 that. There's you

2 GREG HUNTER: Wow.

3 MIKE LINDELL: They say stuff out there. Bots and
4 trolls have attacked. People have called my phone number I
5 don't know how they get it with threats. We have had threats
6 of you know to you know you're living with a pretty nice
7 family things like that. I mean there is that a threat?
8 Absolutely. You know, you know so it's so it's very it's very
9 dangerous and I'm not gonna say who did that. I have private
10 eyes investigators they're investigating all those things. And
11 when we do get some we've caught a couple people that actually
12 were real people that when I turned him in and they actually
13 got to him that just a couple nut jobs. But the fear is the
14 ones that are out there that are behind all this because
15 they're very evil. And when you do a crime of this magnitude,
16 I don't think they care too much about anybody because they
17 certainly don't care about our country and what they're doing
18 to the world and to the United States

19 GREG HUNTER: Wow you have really stood in the breach
20 here and and taken some some shots. Money wise, fear wise, you
21 know, can't live in your house. I wanted to bring up the
22 President I don't know how much you can tell me do you talk to
23 the President on a regular basis?

24 MIKE LINDELL: No, no but when I when I'm down in

1 Mar-a-Lago I you know, and when I do get down there he says
2 hello and we've talked. His his thing is he's very concerned
3 about what where our country will be like in a year or
4 whatever. He said the last time I talked to you said you know,
5 we can't wait we can't wait till 2024. We have to something's
6 got to go now because they're destroying our country. And you
7 know, so there's so many people out there that you know, I
8 just want you know, people get involved in you know, we got to
9 find out you know, what we can do with lawyers. I have the
10 Lindell Legal Offense Fund I'm starting where we can hire
11 lawyers all over the country to go after things that's coming
12 out of Washington. Can we can stop them and and bring these
13 things to court as the people so they can't do things that
14 executive orders that are destroying are going to destroy us
15 before we can get this pulled down. But the President's very
16 President Trump is very concerned. And he's he's not he knows
17 how fast things are getting destroyed right now. And he's he's
18 very encouraging always encouraging to me, Mike, man do you
19 got out there. He goes, he goes you're just doing this to help
20 your country I said what about you sir? You know he's amazing
21 you know, he's uh and he's uh, he works every day all day long
22 and he and I can tell people that he's still he's still
23 working all day come you know, with plans. What do we know
24 from the stuff he's doing to set you know this thing seems set

1 up down there his new office and the things he's doing is
2 great.

3 GREG HUNTER: These the media companies wow. Do you
4 find that the mainstream media as I said I worked at ABC News
5 I worked at CNN I don't that they look like companies that
6 were that are in some dreamland. Because I couldn't get away with
7 this stuff that they're doing now. I mean it really it's not
8 just the the reporters forget that. Forget Jim Acosta he's a
9 rube.

10 MIKE LINDELL: Right.

11 GREG HUNTER: It's editorial are you finding that the
12 the the people at the top of these companies which like to
13 make fun of you. Of course they won't they won't actually come
14 straight on and say okay, oh, you said this this this this
15 about the election fraud that's all a lie. They won't do that.
16 They make fun of you like you're some kook. If you find? Is
17 that what you find? Tell me about your experience with
18 mainstream media.

19 MIKE LINDELL: Well the mainstream media and they up
20 until from January 9 to February 4, I was at the top of the
21 news every single day something. Mike Lindell lost his
22 Twitter. Mike Lindell is getting boycotted. And they even the
23 mainstream media would talk about that. And by the way, I give
24 them all my direct phone number. So Jim Acosta, all of them,

1 The New York Times, The Wall Street Journal, The Washington
2 Post, they all have my direct number. And they called me every
3 day for comments. And then I said they mocked me on Saturday
4 Night Live and Jimmy Kimmel made fun of me. And everybody
5 made fun of me. Well, I said wait till February 5, when I drop
6 the evidence you guys wait till then. And February 5 came and
7 it was crickets. Nobody called, they didn't write. It was nothing in
8 the show.

9 GREG HUNTER: Is this Absolute Proof?

10 MIKE LINDELL: Yeah, this was Absolute Proof.

11 GREG HUNTER: Okay.

12 MIKE LINDELL: From that drop. Nobody called. I was
13 attacked by Google. I was attacked by Wikipedia, everything.
14 YouTube, Vimeo. It didn't matter. But 150 million people seen
15 that. Now, I didn't hear from the mainstream media. I didn't
16 hear from anybody until Dominion finally got off their butts
17 and sued me. I kept saying come on Dominion, I want you to sue
18 me. So then I could come back and show everybody, all the
19 evidence. See, it would be a lot easier to do. In fact, the
20 day the day they did it. The first reporter that call me, they
21 called me all morning long. I said, did you watch Absolute
22 Proof? And they go, No, I didn't. I said you should be you're
23 a shameful reporter. You didn't even bother and watch it on
24 February 5, but yet you call me and ask me comments, about Dominion

1 suing me. I said, you ought to be ashamed yourself. I made
2 each and every one of them go watch that before I would give
3 them comments. It was like it was like herding cats. You go
4 watch Absolute Proof, the short version at lindelltv.com.

5 GREG HUNTER: Wow.

6 MIKE LINDELL: All of them. All of them had to watch
7 it. Then they came back and I said to the first reporter I
8 think it was from the New York Times she's going well Mike,
9 Dominion's suing you for one point some billion dollars. And
10 they said, yes, it's a great day for America. That was my
11 cheer, because I knew then they fell for it. And I could now
12 show the world with my go after them and show all the
13 evidence. I can depose them there. It's all coming out. And I
14 don't even need that I already had it all. They say Mike, go,
15 you're gonna get prepared for court. I was ready to go that
16 day. I've had all this evidence. You can't sue someone for
17 defamation, if you're not defaming them, if you're saying,
18 here's what they did to our country, and I have the evidence.
19 I mean, that's like, it's like playing poker saying I had the
20 winning hand. You got a royal flush, and they get all their
21 going. No, you don't have a royal flush. Okay, we'll see.

22 GREG HUNTER: I also want to talk a little bit. I'm
23 sorry, I'm holding you over.

24 MIKE LINDELL: Yeah, I got I got to get on this.

1 GREG HUNTER: Last thing last question. As you want
2 you to promote this, you're gonna have another story, another
3 film about the cover up a whole separate thing. So you can do
4 that as well.

5 MIKE LINDELL: Yep. Yep. We have Absolute
6 Interference coming out, then we're gonna have Absolute Cover
7 Up coming out.

8 GREG HUNTER: Okay. Mike Lindell, the inventor and
9 the CEO of My Pillow. Mike Lindell I'll put up the links to
10 your site, your your sales page. I don't care whether you've
11 made because you're spending money on this. I'll put up that
